Art Unit: 2153

1. Claims 1-14 are still pending for examination and claims 15-22 are newly presented for examination.

2. The applicants are advised that the amendment filed 5/29/07 is considered non-compliant because it has failed to meet the requirements of 37 CFR 1.121 or 1.4. There is no explanation where is the teaching of the newly amended claims in the specification including drawings to make sure that the specification fully discloses the claimed invention. Moreover, there is no explanation or statement whether or not the newly added claims are the same or different from the old claims. For example, the old claims directed to the email that is created by authorized process while the newly added claim directed to the email that is recognized by one of a virus, a trojan horse and an agent ... There is no statement whether or not the prior art of the record teaches or not teaches the newly added claims.

3. The Office Action should be a Notice of Non-Compliant Amendment and the applicants should be given only one month to responsive to this notice. However, the LIE can not enter a Notice of Non-Compliant Amendment. Thus, the non-final office action is entered and a shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) days from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C 133, M.P.E.P 710.02, 710.02(b)).
